### Mortgage Payment Chart

Use this chart to estimate your monthly mortgage payment. Keep in mind that taxes and insurance may be additional to your monthly payment. Ask your real estate agent for more details about mortgage costs and options in your area. To determine your monthly mortgage payment (principle and interest) simply locate the current interest rate in the first column, and move across to the loan duration you will be using, then multiply that number by the amount of thousands of dollars you will be borrowing.
